02-Roles-Reference

Purple Team Roles Quick Reference

Exercise Coordinator & Aide

Primary Contact for the entire exercise

Phase	Responsibilities
Planning	Ensure CTI is provided, track all planning steps, schedule meetings
Execution	Record minutes (aide), notes (aide), action items, feedback; keep exercise on track
Post	Compile lessons learned, deliver report, track remediation

---

Sponsors

Management approval and support

Responsibility
Approve exercise goals, budget, and scope
Select attendees from their teams
Remove daily duties from participants during exercise
Receive and act on lessons learned

Cyber Threat Intelligence (CTI)

Intelligence provider - Internal or third-party

Phase	Responsibilities
Planning	Identify adversaries with opportunity, intent, capability
Planning	Consume and extract adversary TTPs at procedure level
Planning	Assist the Red Team in creating an adversary emulation plan
Execution	Present adversary context for each TTP
Execution	Participate as spectator to learn about organization

---

Red Team

Adversary emulation

Phase	Responsibilities
Planning	Understand TTPs, prepare reliable emulation plan
Planning	Set up attack infrastructure
Planning	Test payloads on non-exercise systems
Planning	Document all commands in playbook
Execution	Execute TTPs, share screen, provide all IOCs
Execution	Provide: Attacker IP, target, exact time, behaviors

---

Blue Team (SOC / Hunt / DFIR)

Detection and response

SOC Analysts

Phase	Responsibilities
Execution	Attempt detection via alerts and telemetry
Execution	Follow standard investigation process
Execution	Report time to detect, time to investigate

Hunt Team

Phase	Responsibilities
Planning	Share current playbooks
Execution	Hunt for TTP evidence in telemetry
Execution	Identify gaps in visibility

DFIR

Phase	Responsibilities
Execution	Perform forensic analysis
Execution	Identify artifacts and evidence
Execution	Report time to remediate

Cloud & Identity (if in scope)

Phase	Responsibilities
Planning	Confirm cloud accounts/subscriptions in scope and authorized
Planning	Verify cloud security tools (CSPM, CWPP, audit logs) are reporting
Planning	Scope identity providers and federation trust paths
Execution	Monitor cloud-native detection (GuardDuty, Sentinel, Chronicle)
Execution	Investigate identity-based attacks (IdP logs, ITDR alerts)

Responsibility Matrix

Role	Planning	CTI	Execution	Lessons
Exercise Coordinator	Lead	Support	Lead	Lead
Sponsors	Approve	-	Observe	Review
CTI	Support	Lead	Present	Support
Red Team	Prepare	Consume	Execute	Support
SOC	Minimal	Review	Detect	Feedback
Hunt	Playbooks	Review	Hunt	Feedback
DFIR	Minimal	Review	Analyze	Feedback
